Bringing Innovation to Life

Mobility as it should be – enjoyed without a second thought. Our innovations make mobile computing easy and secure, in home and business.

Isn't it great when technology works for you? Start your notebook, touch a button and everything is **brought to life.** Your work, your pictures, your movies – your **digital world.** This is mobility as it should be, effortless and secure. Which is why we created Toshiba EasyGuard and Toshiba EasyMedia. A unique combination of innovations based on your real needs. Create and enjoy your digital life at work and play. With Toshiba it's easy.

Toshiba EasyGuard brings carefree mobile computing to your business life with unique features that simplify data security, system protection, connectivity and manageability. So you get the lowest possible total cost of ownership and the best ROI.

Toshiba EasyMedia delivers you the smarter digital experience with clever little features that make a big difference in three key areas: High Definition, easy usability and easy connectivity. With new and unique possibilities to discover, create and enjoy multimedia, you'll love how Toshiba makes it easy.

Twenty years of leadership in mobile computing has lead to the creation of Toshiba EasyGuard and Toshiba EasyMedia. And our constant investment into research and leading innovation will ensure it continues to evolve, addressing your changing mobility needs.

Everything we do is about innovating to create something you'll love. From looks to a rich array of features, we're constantly developing new ways for you to enhance your digital lifestyle, effortlessly.

Bring innovation to your life with Toshiba – visit www.toshiba-europe.com/leadinginnovation to experience how.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PC's configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
Important information:
Depending on configuration, the Satellite L40 does not contain, and is not equipped with, an Operating System, either pre-installed or other. Also no recovery media is included. The installation of an Operating System is necessary for the use of this notebook. Furthermore, please note that necessary drivers are not included and need to be downloaded from the Toshiba website. For some Operating Systems no drivers may be available. Depending on your choice of Operating System only limited feature functionality will be available. As certain Operating Systems subsequently installed on the notebook may not provide full feature functionality, Toshiba hereby disclaims all potential liability for any such reduced functionality as well as for any errors occuring through installation of the Operating System as such. Furthermore, Toshiba hereby states that it is not responsible for the results of use of any non-licensed software on this notebook, including without limitation any infringement of third party rights.
